[Remembering Canadian astronaut Marc Garneau](#)

Ham recalls Amateur Radio connection to astronaut.

[The Millstone](#)

[DX Look HF propagation map](#)

Whether you're making your first contact, preparing for a POTA/SOTA activation, or just curious about HF propagation—this map helps you choose

the right band, mode, and time to get on the air.

[DX Look](#)

A 15 meter high-pass filter for Field Day

This filter - which could be made to strongly attenuate frequencies on the non-WARC amateur bands below 15 meters (e.g. 20, 40 and 80 meters) - it would have the advantage of also being usable on both 15 and 10 meters.

[KA7OEI](#)

Amateur Radio resources for visiting Hams at the 24 Hours of Le Mans

Visiting Ham operators at the 24 Hours of Le Mans: repeaters and networks available.

[SWLing Post](#)

RadioTranscriptor: Real time radio speech to text transcriptor using AI

It uses voice activity detection to only transcribe when speech is actually happening — great for monitoring radio chatter or voice nets on HF/VHF/UHF.

[RTL-SDR](#)

Crowdsourcing SIGINT: Ham Radio at war

The voluntary interceptors were asked to record any station they couldn't identify and submit a log that included the messages to the Radio Security Service.

[Hackaday](#)

Field Day 2025 and the NTS Traffic Handler

An opportunity to demonstrate the messaging service capabilities of the National Traffic System, especially in an emergency.

[ARRL](#)

Submarines on the air

Operating from the USS Cobia, a WWII Gato class submarine has been a bucket list item for me.

[KB9VBR](#)

Morse Invaders

Morse training in the style of the classic Space Invaders game.
